ASTM/NIOSH/EPA Conference

SKILLMAN, N. J. 08558

6/9/82

Mr. G. Lee to out

George the Chairman of the large ASTM committee of which my dust group is a part, called me especially to request I attend some of this symposium.

It turns out some of the sessions are on target with our talc support activities.

Over and above that, ASTM asks if I will do a little lobbying on their behalf, with the Federal people present. Perhaps you recall some time ago, I mentioned one of the long range plans of ASTM was to assume the criteria document functions formerly conducted by NIOSH. This symposium is one of the steps in the plan to cement relations.

Also, Mr. LeVadie will be there so Harvey and I can go over the ISO situation with him then instead of having to make a special trip to meet with him.
