EDISON

Dear Mr. <sup>ART</sup>Hurdman:

In reply to your recent inquiry regarding the presence of asbestos in #1313 and #1767 Talc, we have examined these products by means of X-Ray Diffraction, continuous scanning method and have found the following detectable amounts:

| Elements   | <u>PE 105</u> | <u>PE 101</u> |
|------------|---------------|---------------|
|            | #1313 Talc    | #1767 Talc    |
| Talc       | 55%           | 81%           |
| Serpentine | 2%            | 6%            |
| Dolemite   | 8%            | 4%            |
| Magnesite  | -             | 3%            |
| Quartz     | -             | 3%            |
| Phlogopite | 2%            | 2%            |
| Chlorite   | 5%            | 1%            |
| Tremolite  | 20%           | -             |
| Calcite    | 4%            | -             |

We trust this information will satisfy your records.

Very truly yours,

WHITTAKER, CLARK & DANIELS, INC.
