Asbestos and Health in Zimbabwe

Thank you for your memo of 12 June. I see no reason to withhold consent to publish the report prepared by Drs. Armstrong and Elmes even assuming we are in a position to do so. If publication is to take place it would be as well for Dr Elmes to be correctly described on page one of the report - indeed I see no reason to refer to T&N in the UK at all.

You will notice the caption at the top of this memo. Your memo of 12 June and the unexpurgated version of the report which have already received fairly wide circulation are discoverable both in the UK and US. There should, on no account ever be any reference to our being intent upon not allowing publication of anything relating to asbestos and health anywhere in the world.

J M Atkinson
